TOLLBOOTH RECONSTRUCTION AT HAMPTON RAMP TOLL
WILL REQUIRE ONE BOOTH CLOSURE AND LANE RESTRICTIONS

The New Hampshire Department of Transportation announces reconstruction work on the Hampton Ramp Toll Plaza will require the closure of one tollbooth and lane width restrictions, beginning Monday, November 8, 2004.

This booth closure will be in place through December 2004 and will affect traffic exiting Interstate 95 at Exit 2. During the booth closure there will be three toll lanes open in each direction.

This project will widen the Hampton Ramp Toll Plaza to eight collection lanes, roadway widening to accommodate increased traffic demands, and bridge work. Severino Trucking Company, Inc. of Candia, New Hampshire is the contractor for the \$6 million project, which has a final completion date of September 2005.
